[linkedin.com/in/prasanna-ramu-51a77727b/](https://www.linkedin.com/in/prasanna-ramu-51a77727b/)

Motivated Computer Science and Engineering student with strong skills in Python, Machine Learning, Artificial Intelligence, Cloud Computing, and Web Development. Experienced in developing innovative projects that address real-world challenges through data-driven and intelligent solutions. Possesses strong analytical, problem-solving, and teamwork abilities, with a passion for continuous learning and emerging technologies. Seeking opportunities to apply technical skills and contribute to impactful software development projects.

EDUCATION

BE

Saveetha Engineering College

2022 - 7th Semester,

CGPA: 7.06

Courses

Computer Science and
Engineering

12th Standard

Springfield Matric Hr. Sec School

2021 - 2022,

PERCENTAGE: 69%

10th Standard

Springfield Matric Hr. Sec School

2019 - 2020,

PERCENTAGE: 62%

INTERNSHIP

Intern

Arjun Vision Tech Solutions

June 2024 – July 2024

Completed a one-month internship in Cyber Security, gaining foundational knowledge of cybersecurity concepts, security practices, and threat awareness. Developed an understanding of information security principles and enhanced analytical and problem-solving skills through practical learning activities.

SKILLS

SQL

JAVA

HTML & CSS

COMMUNICATION

PROBLEM SOLVING

CLOUD COMPUTING

AI TOOLS

C PROGRAMMING

PYTHON

CERTIFICATIONS

AWS Cloud Practitioner Essentials (2025)

Learned AWS cloud concepts, services, security, and architecture fundamentals.

Fundamentals of Generative AI (2024)

Gained knowledge of Generative AI, large language models, and AI applications.

In-Plant Training – Full Stack Development (Java) (2026)

Completed hands-on training in Java-based full stack web development at Retech Solutions.

PROJECTS

Malware Detection using Machine Learning (2024) (Miniproject)

Developed a machine learning system to detect malicious and benign files.

Agriculture Chatbot (2025) (Main Project)

Built an NLP-based chatbot to answer agriculture-related queries.

EEG & ECG-Based Stress Detection (2025) (Final year Project)

Developed a deep learning model for stress prediction using physiological signals.

Portfolio Website (2026)

Created a personal portfolio website to showcase projects, skills, and certifications.
