PROFILE SUMMARY

A results-driven Computer Science graduate skilled in C, Python, and Cyber Security, with hands-on experience from an internship at NSIC Institute. Passionate about building scalable solutions and contributing to innovative, real-world projects in a dynamic tech environment.

SKILLS

Technical Skills:

SQL, Java, HTML, Python, C and AI Tools

Soft Skills :

Leadership, Public Speaking, Adaptability, Communication

PROJECTS

- **Malware Detection using ML** : Developed a classification-based system to detect and flag malware using supervised machine learning algorithms such as Random Forest and SVM. (Aug 2024 - Nov 2024)
- **Agriculture Chatbot**: Developed an NLP-based agriculture assistance chatbot using Python, PyTorch, Hugging Face Transformers, and Streamlit to answer farmer queries by retrieving relevant responses from an agriculture Q&A dataset. (Aug 2025 – Dec 2025)
- **EEG & ECG-Based Stress Detection using DL and XGBoost**: Developing a stress detection system using EEG and ECG physiological signals with Random Forest, XGBoost, and Deep Learning models, and building an interactive Streamlit web application for uploading datasets and performing real-time stress prediction.

EDUCATION

B.E - Computer Science Engineering, CGPA - 7.0

Saveetha Engineering College, (2022 to 2026)

HSC - 69%

Springfield Mat.Hr.Sec.School, (2021 to 2022)

SSC - 62%

Springfield Mat.Hr.Sec.School, (2019 to 2020)

CERTIFICATION

1. Introduction to HTML, CSS, & JavaScript – IBM (Coursera)
 2. Introduction to Embedded Machine Learning – Edge Impulse (Coursera)
 3. Introduction to Programming with MATLAB – Vanderbilt University (Coursera)
 4. Microsoft Azure AI Fundamentals: Generative AI
 5. MongoDB Basics - ICT Academy Learnathon
-
